Advanced Cosmetic Facial Acupuncture

New 2-day Masterclass

www.acuregen.co.uk

The Acuregen State-of-the-Art Cosmetic Acupuncture Training Method is Coming to Sofia, Bulgaria.

Amanda Shayle.Acuregen Founder has spent over a decade developing her facial rejuvenation techniques. 2019 will feature the latest protocols.

Acuregen innovations include specialist, patented Thrive needles and adapted needling for the combination of the Acuregen natural skincare, Clinicare peptide technology and a unique LED Light system to achieve enhanced clinical outcome.

The acupuncture method, however, does stand alone in enhancing the growth of new tissue with medical micro needling and adapted needling methods to release and sculpt facial fascia. Amanda Shayle's method is not based on just using acupuncture points. This is a blend of art while applying evidence based methods

Students will have a complete picture of how to combine other modalities should they wish to do so. They will leave the course able to add these skills to clinical work.

When: 18 to19 May 2019

Where: Hall 73/GB1Cultural Center G8

ul. "William Gladstone", 1000 Sofia Center, Sofia 02 995 0080 link:

Day 1

Introduction to Acuregen facial acupuncture techniques to those new to facial rejuvenation or add a different approach to those with experience. Ageing will be explained scientifically with constitutional aspects linked to traditional Chinese Medicine.

Students will also learn how facial acupuncture can be integrated with other beauty treatment options - plus have a clear understanding of different outcomes possible.

How to assess and needle different facial tissue painlessly and more effectively. This includes skin that is either resistant (often from scarring) or has lost elasticity.

Needle practice to apply base protocol as a safe introduction for all patients and familiarise students with materials. Followed with a **Demonstration and Clinical Session.**

Day 2
Advanced Techniques

This will cover a more detailed understanding of how to treat:
Lines and Wrinkles, Enlarged Pores, Acne Scarring, Discolouration, Dull Complexion, Dryness, Sagging and Loss of Muscle Tone, Eye Bags and Dark rings, Sagging Neck.

New Protocols for:

Facial puffiness and sagging chin area

Decollete and neck problems

Atrophic acne scarring and enlarged pores.

Deep and more superficial lines and wrinkles

We will add auricular and scalp acupuncture to the treatment portfolio wherever possible

The day will feature short sessions of explanation with clinical guided practice. Needling techniques practiced on the first day will be integrated into these treatments.

Face cupping and 'Gua Sha' using the Heskier OneTool, Some facial exercise discussed and demonstrated. More detailed look at LED Light Therapy. How this accentuates results and is a treatment system stand-alone.

Accreditation by The Acupuncture Society - Become a member and use the letters MAcS CA Associated Beauty Therapists (ABT) with also Certification from The College of Chinese Medicine is available (applications are made directly with CCM online on completion of the course).

We are also proud to be (uniquely for a UK company) USA, NCCAOM & California education providers. This in itself should give prospective students the assurance about the quality of teaching they will receive.

AFTER THE COURSE.

You will be invited to become a member of the private Acuregen Cosmetic Acupuncture Network Facebook Forum which will enable you to stay in touch, ask questions, share case studies and become involved in research projects planned for 2019.

This forum is used to post regular CPD events, workshops in the UK and internationally. Also discounts on products including crowd fund opportunities. Ultimately, the Network will become a platform for a self-regulatory group, keeping you safe and informed for your cosmetic acupuncture practice.
